

MASTER SURGEON IN MINIMALLY INVASIVE HAND SURGERY

In partnership with key opinion leaders and industry professionals, SRC developed the Master Surgeon in Minimally Invasive Hand Surgery (MSMIH) program. The MSMIH program identifies surgeons who provide excellent minimally invasive hand surgeries and are dedicated to continuously improving healthcare quality and patient safety.

PROGRAM REQUIREMENTS

1. SURGICAL EXPERIENCE

The applicant surgeon performs at least 150 qualifying minimally invasive hand surgeries annually and has served as the primary surgeon for at least 175 qualifying minimally invasive hand surgeries in their lifetime.

2. EQUIPMENT AND INSTRUMENTS

The applicant surgeon performs minimally invasive hand surgery in a facility that has a full line of equipment and surgical instruments to provide appropriate perioperative care for their patients. The applicant's facility must have documented training for appropriate staff in the safe operation of this equipment.

3. SURGEON DEDICATION

The applicant surgeon has privileges in minimally invasive hand surgery at the facility, is board-certified or an active candidate for board certification and has call coverage. Each applicant surgeon completes at least 12 hours of CME focused on hand surgery every three years.

4. CLINICAL PATHWAYS AND STANDARDIZED OPERATING PROCEDURES

The applicant surgeon formally develops and implements clinical pathways that facilitate the standardization of perioperative care for hand surgery. The applicant surgeon performs each surgical procedure in a standardized manner and uses a template for operative note dictation that ensures proper collection of data for surgical procedures.

5. SURGICAL TEAM AND SUPPORT STAFF

The applicant surgeon has nurses and/or physician extenders and an operative team trained to care for minimally invasive hand surgery patients and provides ongoing, regularly scheduled staff education in-services.

6. PATIENT EDUCATION

The applicant surgeon must provide all minimally invasive hand surgery patients with preoperative patient education, have a process for obtaining informed surgical consent and selecting procedures that are most appropriate for each patient's condition.

7. CONTINUOUS QUALITY ASSESSMENT

The applicant surgeon must collect outcomes data on all patients who undergo minimally invasive hand surgeries in SRC's Outcomes Database (or a similar qualifying database).

This is a summarized list of program requirements which is subject to change. For additional information, please contact SRC by emailing businessdevelopment@surgicalreview.org or calling 919.614.2623.
